

Terms and Conditions for Using Our Wallbox

Dear Guests,

we offer you the option to conveniently charge your electric vehicle directly at our holiday home. If you do not wish to use this service, the nearest public charging station is located at the Schwarzenbach Reservoir, approx. 3 km in the direction of Forbach.

If you would like to charge your vehicle here, please note the following:

- Use only the equipment we provide (no additional cables or adapters).
- Use of the charging station is at your own risk.
- The charging station must be used only as intended and with the necessary care.
- The operator is not liable for damage caused by improper use of the charging station.
- Charging the vehicle from a "standard" 220 V socket is prohibited.
- During charging, do not park the vehicle in the garage; park only outside in front of the garage.
- Our wallbox is a so-called MID wallbox. It measures the exact amount of electricity consumed and meets the requirements for calibrated metering devices.
- To start charging you will need the RFID card, which is kept in the card holder next to the wallbox. The charging card is registered only for this wallbox and cannot be used for any other purpose. Third-party RFID cards cannot be used with this wallbox.

We charge EUR 0.50 per kWh consumed.

Invoicing is issued to the person who concluded the rental agreement with the operators of Ferienhaus-Herrenwies. The invoice will be prepared and sent after the consumption has been evaluated (as logged via the RFID card). Payment must be made promptly, but no later than 7 days after the invoice date.

Billing to a third party is possible in exceptional cases, provided that this person has provided us with their full personal details before use/charging and has received our approval.

Please contact us:

By email: info@ferienhaus-herrenwies.de

By phone or WhatsApp: +49 172 7395-212

Thank you for your cooperation, and we wish you a safe journey at all times!

Your hosts

Katja & Markus Junker
